Source: BUS-43 Policy (Purchases of Goods and Services; Supply Chain Management)

Policy Revision Date: 1/20/2021

Purpose of Policy: to maintain a separation of employee's University and private interests, and to safeguard the University of California and its employees from charges of favoritism in the acquisition of goods and services. The rules below apply restrictions on Purchases/Leases/Contracts in the following situations:

Employee-Supplier Relationship:

An employee, acting alone, **proposes** for a consideration to lease or sell goods or to provide services to University of California departments; or an employee who owns or controls more than 10% interest in any business which **proposes** for a consideration to lease or sell goods or to provide services to University of California departments.

→The University may enter into a contract for goods or services with an employee who has teaching or research responsibilities, or a student employee, provided that: the Procurement/Supply Chain Director (or designee) has made a specific determination that the goods or services are not available either from commercial sources or from within the University.

Former employee-Supplier Relationship:

A former employee acting alone, **proposes** for a consideration to lease or sell goods or to provide services to University departments, this includes a former employee or retiree who has had teaching or research responsibilities, when:

1. Less than two years' time has elapsed since the individual separated from University employment, and the individual had been engaged in any of the negotiations, transactions, planning, arrangements, or any part of the decision-making process relevant to the contract during the period of employment; or
2. Less than one year's time has elapsed since the individual separated from University employment, and the individual had been employed by a department in a policy-making position in the same general subject area as the proposed contract.

→ Nevertheless, the University may enter into a contract for services with a **retiree** immediately following retirement **if the retiree did not participate in any way while serving as an employee, in the making of the contract for services.**

Note: IRS Rule does not allow an individual to receive a W2 and 1099 in the same tax year, so the employee or retiree cannot be hired as a contractor if they left UCI in the same calendar year.

Near Relative of an Employee-Supplier Relationship:

The near relative of an employee, acting alone, **proposes** for a consideration to lease or sell goods or to provide services to University departments, when the employee has, in any connections with his or her University employment, any responsibility for or will be involved in any manner, in the department's decision to accomplish or approve the transactions; OR

The near relative of an employee owns or controls more than a 10% interest in a business, which **proposes** for a consideration to lease or sell goods or to provide services to University departments, when the employee has, in any connection with his or her University employment, any responsibility for or will be involved in any manner in the department's decision to accomplish or approve the transactions.

1. University may purchase or lease goods from, or purchase services with the near relative of any employee, provided that the Procurement/Supply Chain Director or designee has made a specific determination that the goods or services are not available from the University's own facilities, and
2. the employee: does not have, or has not had any responsibility for, or will be involved in any manner, in the department's decision to accomplish or approve the transaction(s);
3. and, does not have a personal financial interest in the transaction, or does not own or control more than a 10% interest in the business which proposes to lease or sell goods or to provide services to the University.
