Purchasing News

Purchasing Unmanned Aerial Vehicles (UAV) or Unmanned Aerial Systems (UAS)

Due to the growing popularity of UAV/UAS (e.g. drones), UCI is in the process of setting guidelines for this type of purchase that align with the Federal Aviation Administration (FAA).

Prior to the purchase and operation of UAV/UAS, consult with Risk Services to begin the process. Please note, the following information will be discussed and may be helpful to provide ahead of time.

- Description of the drone (model, manufacture, size, weight, video, etc.)
- Intended project or activity for drone
- Area of research or study
- Flight plan

After consultation with Risk Services, a KFS Requisition may be completed. Remember to attach the email correspondence from Risk Services to the Requisition, and use the following commodity code: 25131705 (Reconnaissance Drones). PALCards may also be used to purchase UAV/UAS after consultation with Risk Services. The cardholder will need to submit the email correspondence from Risk Services as part of their back up documentation.

Note: A UCI Website is in development to provide UCI specific information for the campus. Stay tuned for more information.
Simplify Work

Use one of the following purchasing methods to expedite workflow!

• UCIBuy
• PALCard

Domestic Refrigerators/Freezers Used In Lab Environments

When domestic refrigerators and freezers are used in a laboratory environment, employees must follow EH&S’s purchasing procedure.

Click the following link for more information: EH&S refrigerator and freezer purchasing procedure for UCI laboratories.

Please contact Chris Younghans-Haug at 824-2221 or email chrisyh@uci.edu for questions and approvals.

The link is also available on our Purchasing Methods Guide.
