Purchasing News

Stay tuned for more information!

Requisition Best Practices

Keep the following guidelines in mind when completing a Requisition:

- **Explanation Field:** Include a clear, concise message of what you want to convey to the Contract Manager, e.g. “Quote and Sole Source Justification attached,” or “This is a Recurring Payment Purchase Order.”
  - For Recurring Payment Requisitions, include the previous purchase order number in this field, if applicable. This helps the Contract Manager communicate appropriate information to the supplier.

- **Notes and Attachments:** Always attach backup documentation to the Requisition, such as quotes and justifications—this includes renewal of recurring payment requisitions.
Tax Charges on Purchase Order

The PO copy that is sent to the supplier does not reflect tax, and only displays the subtotal. The following statement is transmitted on every PO: “Shipping, Handling, and Tax charges are calculated and charged by each supplier.” If a supplier questions this, kindly refer to the above statement.
