Purchasing News

P200 Evolves to SC500

UC Procurement implemented a systemwide program, [P200](#) in FY12/13 as part of the [Working Smarter initiative](#). P200 set out to capture benefits through cost reduction, cost avoidance, incentives and revenue generation, and we are pleased to report that the program delivered \$268.7 million in annual benefits in FY15/16, one year ahead of the program goal!

Having surpassed the P200 goals, UC's Chief Financial Officer and Chief Operating Officer have set forth Supply Chain 500 (SC500) as one of their key strategic initiatives to increase the annual benefit to \$500 million. SC500 expands upon P200 by leveraging the successful cross-campus governance model, expanding Centers of Excellence (COE), fully integrating procurement and payable processes, consolidating program benefits, continuously improving procurement processes, and optimizing the supply chain. SC500 not only includes purchasing, but accounts payable, shipping/receiving, warehouse/stockrooms, inventory and equipment management (disposal/surplus/recycling), and travel.

Stay tuned for more information.

UCIBUY

New in UCIBuy

eppendorf

[Eppendorf](#) offers a variety of Liquid, Cell and Sample Handling products in its new UCIBuy Hosted Catalog. Contact your dedicated [Eppendorf Team](#) for assistance on the full line of Eppendorf/New Brunswick products.

A new **'Minimum for Free Shipping'** Supplier designation in UCIBuy helps you to avoid unnecessary shipping costs, by taking advantage of the Free Shipping available based on Supplier contracted minimums; terms are subject to change.

The **'Price Includes Shipping'** icon will still be used when Suppliers' contracted pricing includes Standard Shipping.

Equipment Management

Equipment Audit

University and Federal regulations require periodic verification of the accuracy of the University's equipment inventory by the Equipment Management biennially. This verification is accomplished by physically verifying a sample of equipment property item(s) randomly selected from your departmental inventory list.

A KFS Decision Support Statistical Sampling report was generated to randomly select the item(s) to be audited after FY15/16 closing. Helen Chang, Equipment Manager, has sent the report and instructions via email to the Asset Representative and Department Head. The Asset Representative will locate the item(s), verify property, property ID tag, building, room number and contact Equipment Management to arrange a suitable date, time and location for audit verification. Please contact Helen Chang (hmchang@uci.edu; 949.824.6111) with questions.
